at Napa-Vallejo Household Hazardous Waste Collection Facility

ReUse Locker

Landscape • Auto • Cleaning Home Repair • Paint

- Each year 7,000 residents drop-off material at the Facility
- 500,000 pounds of waste were collected last year
- The cost to manage this waste was \$375,000
- Waste was incinerated, neutralized, recycled, or sent to a hazardous waste landfill

Choose to ReUse!

Sometimes people bring new or partially used products to the Facility. If they're still in good condition (and not banned) other people can use them for their intended purpose instead of the Facility disposing of them as hazardous waste. *ReUse saves money & resources.*

Tips to reduce
waste

Reduce Waste

Unwanted products are sometimes unavoidable, however here are some tips to help reduce waste:

- 1) **Buy the right product for the job.** What do you want the product to do?
- 2) **Buy only the amount you need or can use up.** Do you really need the "jumbo" or "bargain" size?
- 3) **Store the product properly so it doesn't become unusable.** Keep in a covered, dry, safe place.
- 4) **Buy the least toxic alternative.** To minimize negative impacts to people/pets/the environment.
